**ANNOVI
REVERBERI**
The Power of Experience

Un supermercato di Parigi, un autolavaggio di Los Angeles, un campo di grano a sud di Kiev: un'unica cosa in comune, un prodotto che deriva dal cuore dell'Italia, una pompa Annovi Reverberi.

Fondata nel 1958 da Corrado Reverberi, Annovi Reverberi è ancora oggi un'azienda italiana di famiglia, una realtà metalmeccanica fortemente legata al territorio, fatta di persone idee e progetti innovativi. Un esempio di imprenditoria italiana basata su esperienza, artigianalità e innovazione. Un marchio riconosciuto in tutto il mondo come simbolo di massima qualità e saper fare italiano. 60 anni di storia che hanno visto il gruppo Annovi Reverberi crescere notevolmente e diventare protagonista in tre settori di riferimento: agricoltura con la produzione di pompe a membrana; industria attraverso il successo delle pompe a pistoni AR e infine intorno agli anni '90 cleaning con lo sviluppo di idropulitrici e aspiratori.

A supermarket in Paris, a car wash in Los Angeles, a wheat field south of Kiev: the same thing in common; a product from the heart of Italy, an Annovi Reverberi pump. Founded in 1958 by Corrado Reverberi, Annovi Reverberi is still an Italian family-owned company, a mechanical engineering reality strongly linked to the territory and made up of people, ideas and innovative projects. An example of Italian entrepreneurship based on experience, innovation and passion. A brand recognized all over the world as a symbol of top quality and Italian know-how. It's a 60 year history that has seen the Annovi Reverberi group grow considerably and become a protagonist in three sectors of reference: agriculture with the production of diaphragm pumps; industry through the success of AR piston pumps and, finally, around the 90s, cleaning with the development of high-pressure washers and vacuum cleaners.

INDUSTRIAL DIVISION

Annovi Reverberi, leader nella personalizzazione di prodotto, negli anni è stata in grado di adattarsi alle richieste del singolo cliente sviluppando oltre 50 tipologie di pompe a pistoni.

Ogni singolo prodotto marchiato AR viene realizzato seguendo processi produttivi che rispettano la norma ISO 9001:2015 e viene collaudato prima dell'invio al cliente.

Scegliere Annovi Reverberi significa affidarsi ad un marchio che è stato capace di affermare la propria credibilità nel corso del tempo. Con oltre il 75% del fatturato della divisione industria del Gruppo che deriva da esportazioni extra-UE oggi lo scudo AR è simbolo di tecnologia italiana in tutto il mondo.

Nata a Modena

Born in Modena

Annovi Reverberi, leader in product personalization, over the years has been able to adapt its products to the needs of individual customers by developing over 50 types of piston pumps.

Every single AR branded product is created following production processes that comply with the ISO 9001: 2015 standard and is tested before being sent to the customer.

Choosing Annovi Reverberi means relying on a brand that has been able to evolve and develop over time. Over 75% of AR's Industrial Division Sales turnover derives from exports outside the EU. Today the AR logo is a symbol of Italian technology all over the world.

PLUS

Testa pompa in ottone forgiato con disegno per alta resistenza.

Forged brass pump head, designed for strength.

Valvole di aspirazione e mandata con passaggi acqua maggiorati.

Intake and delivery valves with larger water passages.

Pistoni in ceramica di grosso spessore per una maggiore durata.

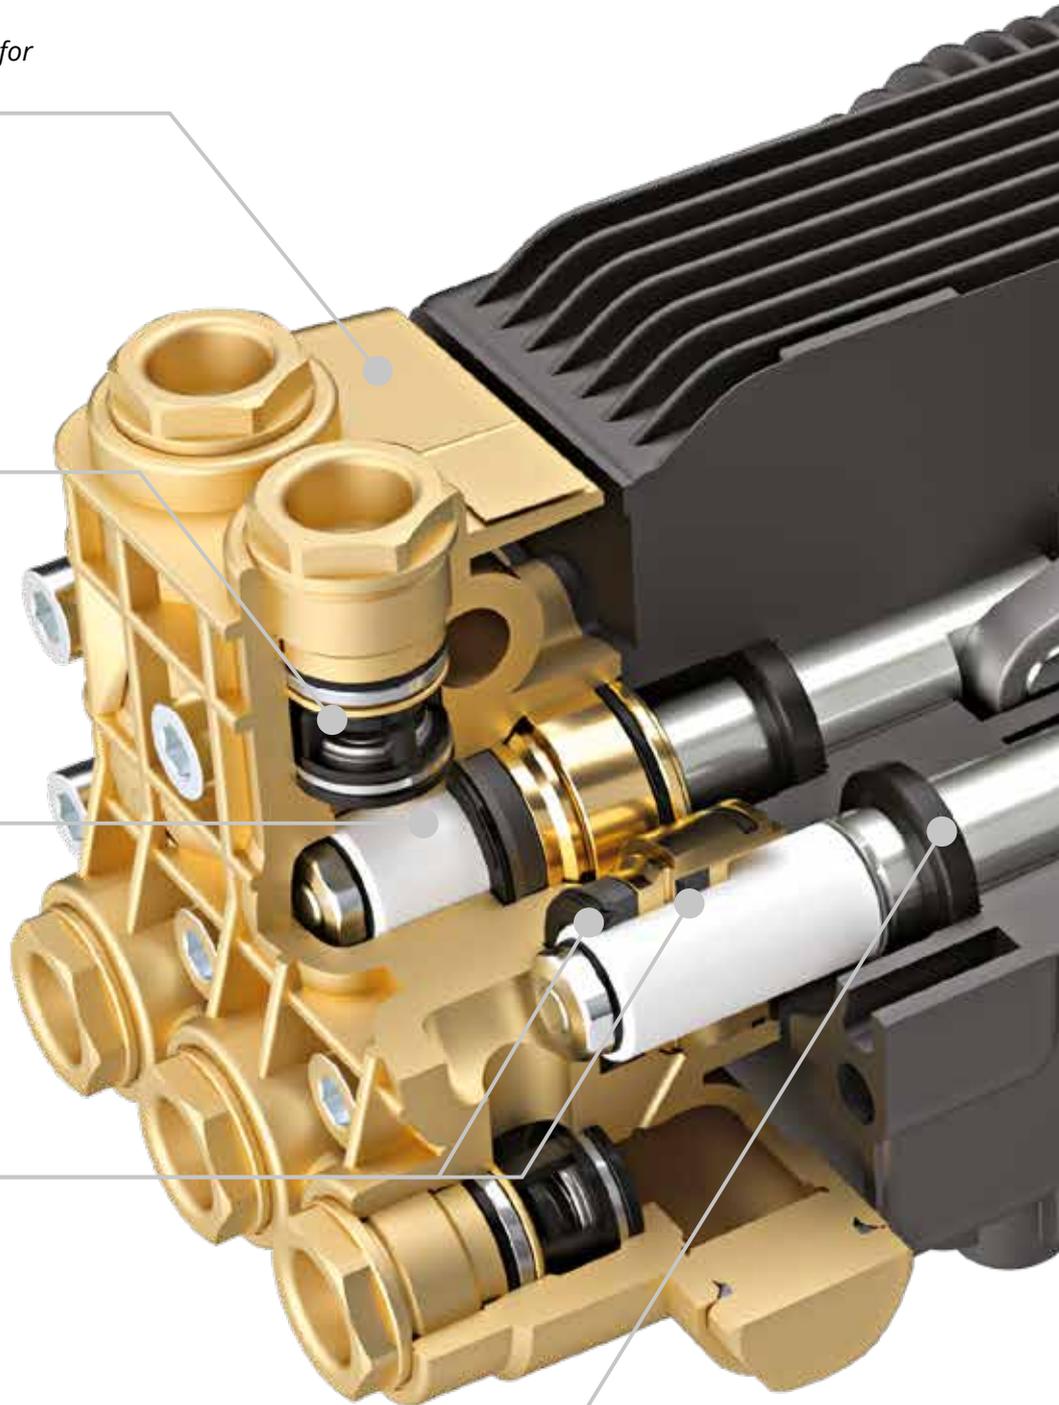

Extra-thick ceramic pistons for greater durability.

Sistema di tenuta a doppia guarnizione.

Double gasket sealing system.

Anelli tenuta olio con doppio labbro.

Double lip oil seals.

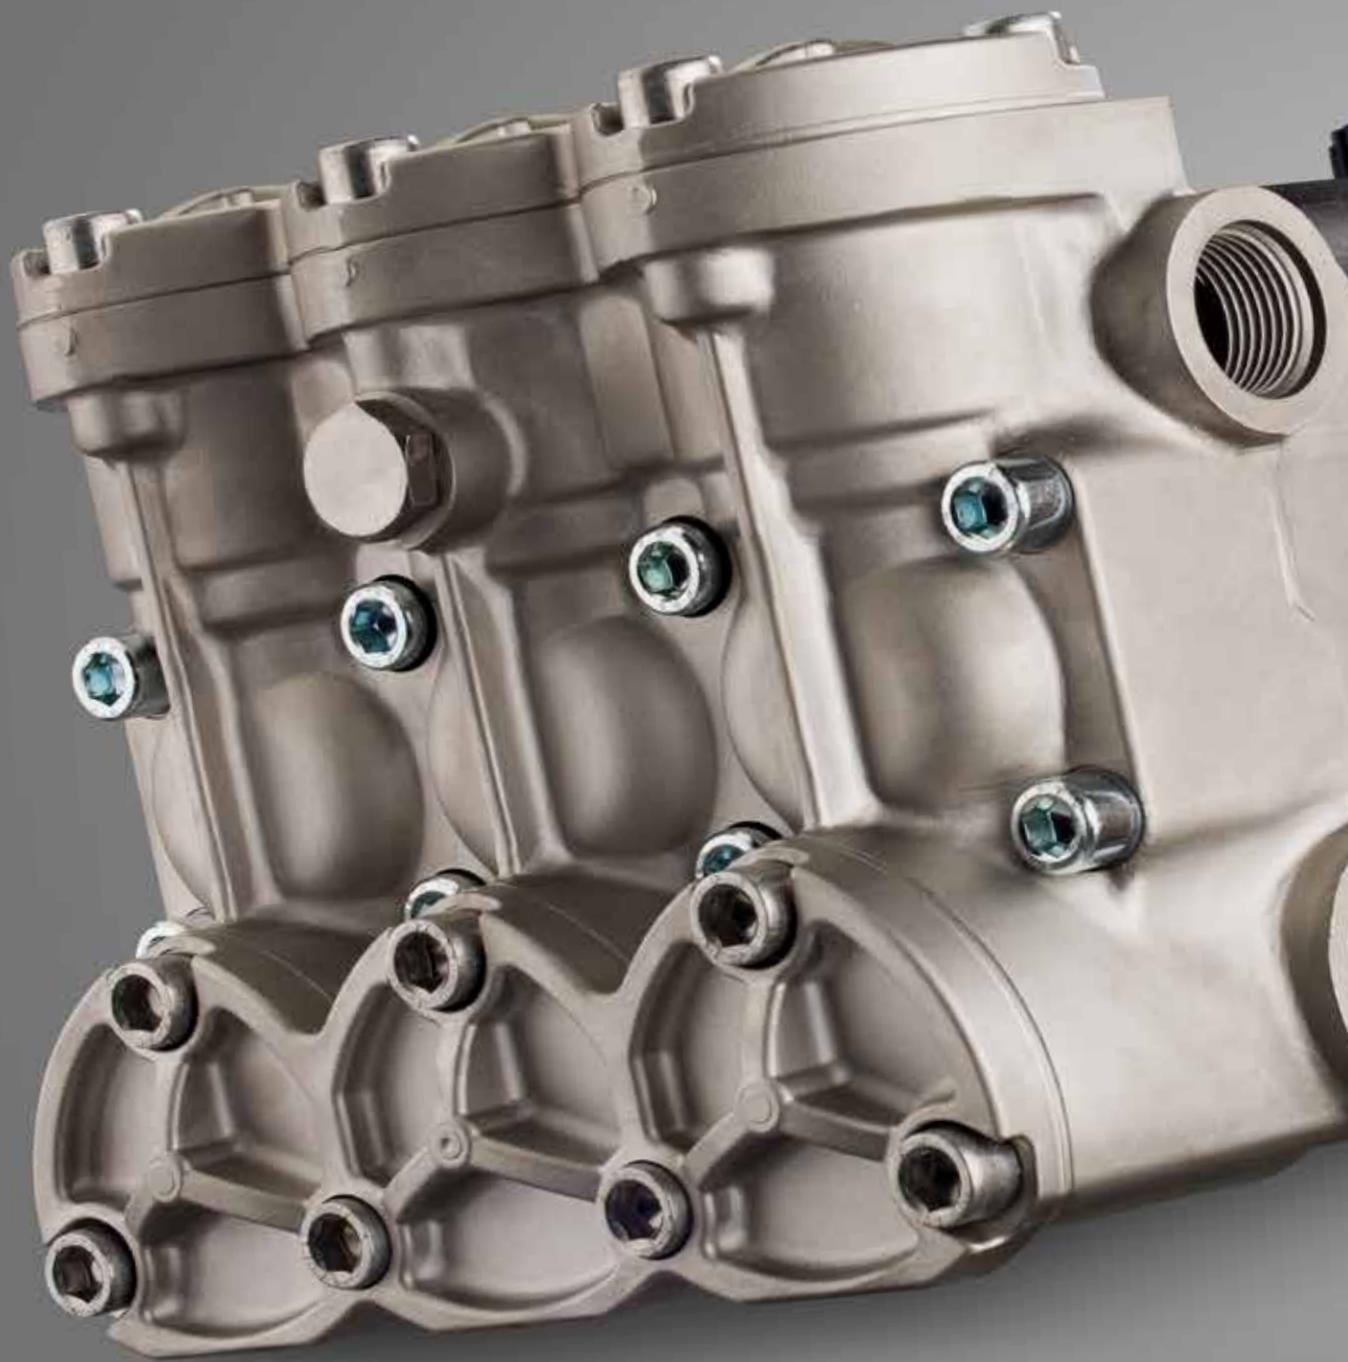

Corpo pompa di disegno robusto e con elevata alettatura per un miglior smaltimento del calore.
Ruggedly designed pump body with deep fins for better cooling.

Cuscinetti a rulli conici di qualità e sovradimensionati.
Top quality, oversized tapered roller bearings.

Albero sovradimensionato e con terminale lungo per una migliore trasmissione della coppia.
Oversized shaft with long end section for better torque transmission.

Bielle sovradimensionate e realizzate con una speciale lega antifrizione. Scomponibili in due parti per una migliore manutenzione.
Oversized connecting-rods in a special low-friction alloy. Split into two parts for easier maintenance.

Pistoni di guida sovradimensionati e rettificati per una riduzione dell'attrito durante lo scorrimento ed una migliore tenuta olio.
Oversized, piston guides for smoother stroke and better oil seal performance.

**PER OGNI INDUSTRIA LA SUA
POMPA A PISTONI**

L'attenzione per il dettaglio e componenti di altissima qualità lavorati direttamente in azienda sono stati gli ingredienti principali per sviluppare una gamma completa di pompe a pistoni caratterizzate da diverse prestazioni tecniche per garantire non solo il lavaggio ad acqua ma anche nuove applicazioni come, ad esempio, misting, osmosi inversa e abbattimento polveri. Le pompe a pistoni AR sono compatte, sempre più silenziose, dotate di pistoni in ceramica per garantire una maggiore durata e necessitano una manutenzione minima data la loro affidabilità. Inoltre possono essere associate a diversi accessori e allestite con motori idraulici, a scoppio e elettrici tra cui i motori Made in Italy Ravel, azienda parte del gruppo.

**FOR EVERY INDUSTRY THE PISTON PUMP
YOU NEED**

The attention to detail and high quality components finished directly inside the company have been the main factors in developing a full range of piston pumps characterized by different technical characteristics suitable not only for cleaning but also for new applications such as misting, reverse osmosis and dust suppression.

AR piston pumps are compact, silent running, equipped with ceramic pistons to guarantee longer life and require minimal maintenance due to their reliability.

In addition, AR pumps can be associated with various accessories and equipped with hydraulic, petrol and electric engines including the Made in Italy Ravel electric motors, manufactured in a company belonging to the Group.

DESIGN FOR PERFORMANCE

CORPO COMPATTO. PRESTAZIONI ELEVATE.

Una gamma completa di pompe a pistoni per garantire diverse applicazioni: JR, JRA, JRS ideali per l'utilizzo su idropultrici grazie alla loro dimensione compatta.

JR-M, JRA-M studiate appositamente per l'applicazione misting.

Disponibile la versione con TSS integrato e in associazione a motori elettrici.

COMPACT BODY HIGH-PERFORMANCE PUMP

A full range of performance piston pumps for different applications: JR, JRA, JRS perfect for high-pressure washers because of its compact dimensions.

JR-M, JRA-M studied in detail for misting application.

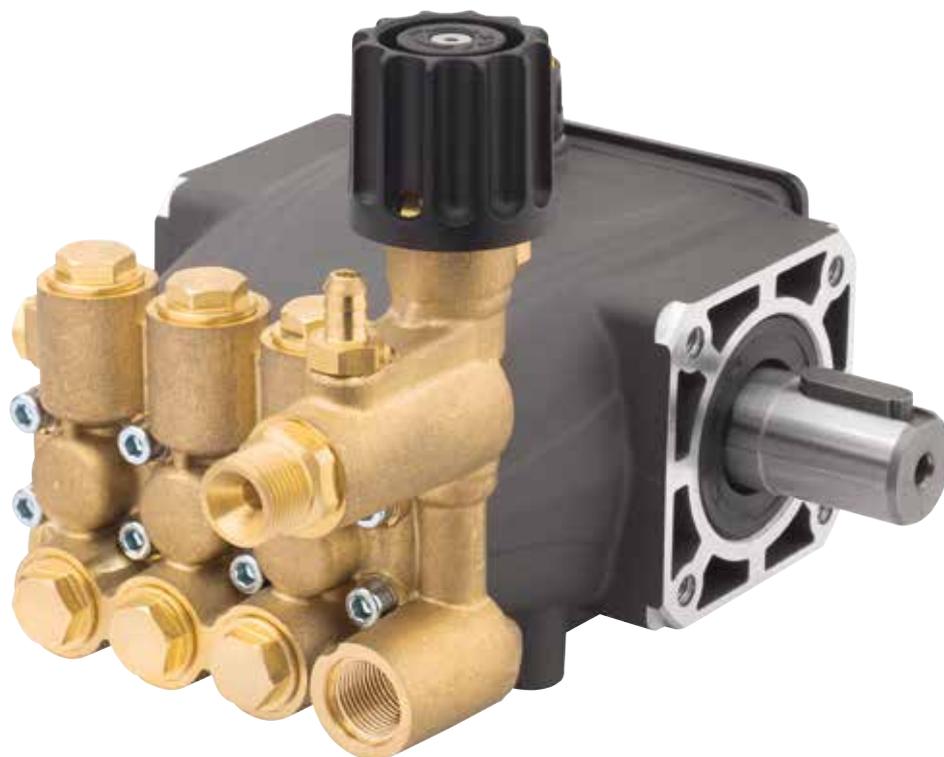

Available TSS version and electric motor-pump units.

PREMIUM SERIES

- 1** Cuscinetti a rulli conici di livello Premium.
- 2** Bielle in speciale lega in bronzo.
- 3** Testa in ottone nichelato per una maggiore resistenza agli agenti chimici.
- 4** Corpo in lega di alluminio pressofuso con trattamento di verniciatura a polvere per una maggiore resistenza alla corrosione.
- 5** Coperchio posteriore maggiorato per contenere una maggiore quantità di olio e per garantire quindi una migliore lubrificazione.
Tappo scarico olio magnetico per raccolta di particelle metalliche provenienti dall'usura delle parti meccaniche in movimento.
- 6** Pistoni in ceramica.
- 7** Doppia guarnizione Long Life per una durata maggiore e prevenire perdite di acqua.

- 1** *Premium quality tapered roller bearings.*
- 2** *Connecting rods in a special bronze alloy.*
- 3** *Nickel-plated brass pump head for added protection against chemicals.*
- 4** *Pump body in pressure die-cast aluminium alloy with a paint treatment that increases the corrosion resistance.*
- 5** *Extended back cover to contain a larger amount of oil and ensure a better lubrication.*
Magnetic discharge oil cap to attract all microscopic metal particles arising from heavy duty usage.
- 6** *Ceramic pistons.*
- 7** *Long life double sealing system to ensure longer duration and prevent water leakage.*

402 SERIES

Derivata dalla RG ma con testa di nuovo disegno per poter raggiungere pressioni più elevate grazie al posizionamento delle valvole di aspirazione sopra ai pistoni. Pompa a facile manutenzione grazie all'architettura della nuova testa.

Pump derived from the existing RG series pumps with a new-design head with the intake valves placed above the pistons to generate higher-than-normal pressures. The new head configuration simplifies pump maintenance.

RTX-I Stainless Steel ad alta pressione
fino a 500 bar.

- Albero in acciaio ad alta resistenza e supportato da due **cuscinetti a rulli conici** di alta qualità e sovradimensionati.
- Bielle in **bronzo**.
- Corpo pompa e coperchi laterali in lega di **alluminio ad alta resistenza** per pressofusione e con trattamento di **anodizzazione**.
- Pistoni in **ceramica** integrale.
- Sistema di tenuta a **doppia guarnizione**.
- Testa in **acciaio inox** AISI 420.
- **Valvole di costruzione robusta** per reggere le alte pressioni di utilizzo.
- Coperchio posteriore con **scarico olio**.
Livello olio laterale.

RTX-I Stainless Steel pump up to 500 bar.

- *Shaft in high-strength steel supported by two **high-quality, oversized tapered roller bearings**.*
- ***Bronze** connecting rods.*
- *Pump head in **stainless steel** AISI 420.*
- *Body and side covers in **anodised die-cast high-strength aluminium alloy**.*
- ***Ceramic pistons**.*
- ***Double gasket sealing system**.*
- ***Valves** are of **rudded construction** to withstand the high operating pressures.*
- *Back cover incorporated with **oil drain outlet**.
Lateral oil sight glass.*
